JOURNAL OF MEDICO INFORMATICS
eISSN 3108-2696 (Online) · Published by Aayvu Publications Private Limited

Author Declaration form

To be completed and uploaded with every new submission

1	**Originality and Prior Dissemination**		
	[1]. The manuscript is original, is the authors' own work, and has not been published previously in any language, in whole or in substantial part. [2]. The manuscript is not under consideration, in review, or accepted for publication by any other journal, and will not be submitted elsewhere while it is under consideration by this journal. [3]. Any reuse of the authors' own previously published text is quoted and cited in the same way as text by any other author. [4]. The manuscript has been screened by the authors and, to the best of their knowledge, the overall textual similarity does not exceed 15%, excluding references and correctly attributed quotations. [5]. Prior dissemination of any part of this work is declared below. Write "None" if there has been none.		I Agree I Disagree
2	**Details of manuscript/Data Previously Published**		
	Preprint server and DOI or URL		
	Conference abstract or proceedings		
	Thesis or dissertation chapter		
	Any earlier report on the same dataset		
3	**Authorship**		
	[1]. Every person named in the byline meets all four ICMJE authorship criteria: substantial contribution; drafting or critical revision; approval of the final version; and accountability for the work. [2]. No person meeting those criteria has been omitted, and no person who does not meet them has been included. There is no guest, gift, honorary or ghost authorship. [3]. Every author has seen and approved the submitted version and agrees to the order of names in the byline. [4]. Every author has been given a copy of this declaration and has authorised the corresponding author to submit it on their behalf. [5]. The authors understand that any change to the author list after submission requires a written request signed by every author and by the person being added or removed.		I Agree I Disagree

4	**Research Ethics**			
	Mark each row Yes, No or N.A. A "No" answer where the item applies will prevent the manuscript entering review.			
	ITEM	Yes	No	NA
	The study was approved by a named institutional review board or ethics committee, and the approval number and date appear in the manuscript.			
	Research involving human participants complied with the Declaration of Helsinki and informed consent was obtained.			
	Written consent to publish was obtained from every individual identifiable from a photograph, case description or pedigree, and is held by the authors.			

	Research involving animals complied with applicable institutional and national welfare standards.			
	Any clinical trial was registered prospectively, at or before first participant consent, and the registration number appears in the abstract and methods.			
	Sex and gender of participants, animals or cells are reported, or their omission is justified.			
	The study was approved by a named institutional review board or ethics committee, and the approval number and date appear in the manuscript.			

	Ethics approval number and date	
	Approving committee and institution	
	Trial registry and registration number	

5	**Funding and Conflicts of Interest**			
	[1]. All sources of funding are disclosed in the manuscript, with funder name, grant number and recipient. Where there was none, the manuscript says so. [2]. All financial, personal, academic and institutional interests that could be perceived to influence the work are disclosed in the manuscript. [3]. The authors will inform the editorial office promptly if any of this change while the manuscript is under consideration.			I Agree I Disagree

	Funder(s) and grant number(s)	
	Declared conflicts of interest	

6	**Generative AI**		
	[1]. No artificial intelligence tool is listed as an author. [2]. Any use of generative AI is declared in the manuscript under 6.2, naming the tool, the purpose and the extent of its contribution. [3]. Where AI was used in the research itself, rather than in writing, it is described in Materials and Methods with version numbers and parameters. [4]. The authors accept full responsibility for the accuracy, originality and integrity of all material produced with AI assistance, including that it infringes no third-party rights.		I Agree I Disagree
	State the position for this manuscript:		
	No generative AI or AI-assisted technology was used in the writing or editing of this manuscript.		
	Generative AI was used as follows:		
	Give AI Declaration Statement:		

7	**Data and Third-Party Material**		
	[1]. The manuscript carries a Data Availability Statement, and the authors will retain the underlying data for at least five years from publication. [2]. Repository names and accession numbers are given for all deposited data. Where these are not yet available, the manuscript says they will be supplied during review. [3]. Written permission has been obtained for every item of third-party material, and that permission extends to publication under CC BY 4.0, including commercial reuse and adaptation. [4]. Third-party material for which such permission could not be obtained has been removed or replaced.		I Agree I Disagree

8	**Undertaking on Acceptance**		
	The authors understand and accept that: ✓ If the manuscript is accepted, every author will be required to sign the journal's Licence to Publish and Author Agreement before production begins; ✓ The article will be published open access under CC BY 4.0, which permits anyone to reuse, adapt and commercially exploit it with attribution; ✓ CC BY 4.0 cannot be revoked once the article is published; ✓ The manuscript will be screened for textual similarity and AI-generated content, and the measured percentages will be printed on the published article; ✓ The journal operates single-blind peer review with a minimum of two independent reviewers; ✓ A false statement in this declaration may lead to rejection or, after publication, to correction or retraction.		I Agree I Disagree

9	**Declaration and Signature**			
	I sign as corresponding author, with the authority of every co-author, and confirm that each declaration above is true and complete to the best of our knowledge.			
	Corresponding Author Name		Signature	
	Email		Seal	
	ORCID iD		Date
